

# 40/4® WOOD FRAME

The chair retains the proportions, angles, and characteristic curves of the iconic steel rod sled frame

Stackable up to 25 chairs on a dolly and up to 12 chairs on the floor

Natural or stained wood veneer, FSC® certified

Retrofittable floor linking brackets and integrated seat pad available

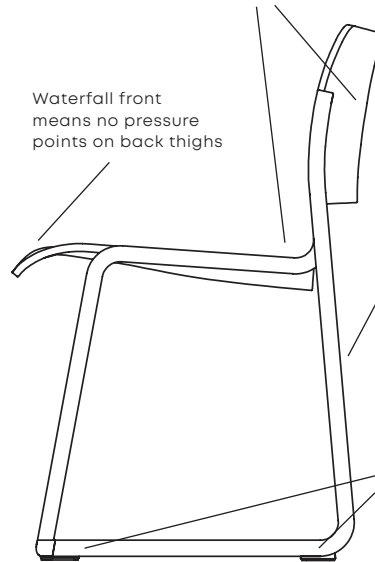

Broad 3D seat and back encourage correct sitting posture

Waterfall front means no pressure points on back thighs

Pressed veneer frame

Hard plastic glides for soft floors. Optional felt glides for hard floors

The original 40/4 chair by David Rowland remains an undisputed icon of multifunctional design, known for its exceptional stacking and handling capabilities, graceful lines, and outstanding ergonomics. This pioneering stackable chair seamlessly captivates architects and designers globally.

The extended 40/4 chair family offers numerous finishes and versatile variants, including lounge, barstool, and wood versions. From classical curves to modern twists, this collection presents new iterations of the iconic design, allowing for consistent furnishing across different environments such as schools, universities, churches, offices, or training establishments.

Winner of numerous design awards, the 40/4 chair is featured in design collections and museums worldwide.

## TESTING AND WARRANTY

- 40/4 is designed for severe contract use.
- The chair passed testing according to the required EN standards.
