

Moveo is a handsome new generation 'flip top' table system for meeting and training applications, and in particular provides an excellent solution for the provision of power and data to the table top. Moveo is designed as companion table for the Motio chair.

Polished die-cast aluminium bases, natural anodised extruded aluminium leg columns with clip in vertical cable managers and a powerbeam® housing for power and data socket sets, to be accessed through elegant anodised aluminium ports in the table top. Castors or glides as required.

TESTING AND WARRANTY

Moveo flip version is tested to EN1730 2000, level 4 and BIFMA, and is appropriate for 'normal contract use', and carries the HOWE 5 year warranty.

Moveo fix version is tested to DS/EN 15372:2009, level 2 and is appropriate for 'normal contract use', and carries the HOWE 5 year warranty.
