

DESIGN BY JOHN BOLLEN 2004 • WWW.HOWE.COM/TUTOR

TUTOR

Tutor is a high density stacking table for use in education and training establishments where flexibility is key and the maximum utilisation of space is of paramount importance. The table provides the ultimate space-saving solution for flexible learning interiors.

DESCRIPTION

Tutor is a high density stacking table for learning environments. Stackable up to 30 tables on dolly.

PRODUCT DETAILS

TABLETOP

0.24" post-formed compact laminate with black core and ultra-thin coloured laminate or wood grain laminate on both sides. 0.24" total thickness. A versatile, high performance material with inherent structural solidity for applications demanding damage resistance, hygiene, long-life and minimum maintenance. The tabletop continues down to form a structural modesty panel.

Standard finishes are white, grey, red and black. Any FunderMax compact laminate also available. The horizontal part of the tabletop is lowered 0.04" from the top of the steel frame. The vertical part of the tabletop is centred within the steel frame.

EDGE

Always black natural core edge.

BASE

The table frame is in sledge design. The steel-tube is $\varnothing 0.55"$. Base finish comes in chrome (20-50 μ), satin chrome (20-50 μ) and black, HOWE grey or aluminium coloured powder coating (40-100 μ). The front cross steel-tube is $\varnothing 0.47"$ with 0.12" steel-pins for fixing of the tabletop. Frames on two-person tables are strengthened with an extra steel tube inlay in the front part of the table frame. The horizontal part of the tabletop is mounted on four steel mounting plates. A cross-stretcher in folded steel ensures the stability of the table.

GLIDES

4 glides in transparent polycarbonate (PC) are mounted on the frame. Moulded felt on glides optional for extra floor protection.

STACKING CAPACITY

Up to 30 tables can be stacked on dolly. The tables stacking height is 65.4"

DIMENSIONS AND WEIGHT

DIMENSIONS

The height of the table is 28.3"

The width of top is either 23.6" (one-person) or 47.2" (two-person).

Total width is either 26.4" (one-person) or 50" (two-person).

Total depth is 26.1"

Depth of top is 19.7"

30 one-person tables stacked on dolly: Height: 65.4", Width: 28", Depth: 39.4"

30 two-person tables stacked on dolly: Height: 65.4", Width: 51.6", Depth: 39.4"

The dolly including 30 one-person tables takes up 7.63 sq. ft. floor space.

The dolly including 30 two-person tables takes up 14.1 sq. ft. floor space.

WEIGHT

One-person table with chrome frame weighs 17.6 lb.

Two-person table with chrome frame weighs 28 lb.

ACCESSORIES

TRANSPORT DOLLY in HOWE grey powdercoating. Capacity of 30 tables. Dolly-dimensions is 31.5" x 28" for one-person tables and 31.5" x 51.6" for two-person tables.

LINKING DEVICE in black POM link table frames at floor level.

ERGONOMY & ENVIRONMENT

The waterfall curved tabletop design does not restrict blood circulation and so prevents undue pressure under the lower arms. The stacking of the tables is ergonomically correct - the tables only require a low lift to slide from front.

The tabletops and frames are produced according to ISO14001 standards. All parts of the table can be dismantled and recycled.

TESTS

MECHANICAL TEST

The Tutor table has been subjected to the EN 1730, DS/INF 131:2001 table strength, durability and stability test, level 5. The table passed without damages or signs of beginning damages. The Tutor table has also passed the BIFMA test.

PHYSICAL PROPERTY TEST

The tabletop conforms to the physical property test EN 438-2.

FIRE RETARDANCY TEST

The tabletop conforms to B2 and M2.

WARRANTIES

HOWE a/s gives a 5 years guarantee on all Tutor tables against weld breakages, defective material, workmanship and performance under normal use. The guarantee is valid as from date of shipment. The HOWE warranty becomes invalid, if the product exhibits signs of abuse or improper handling or other physical damage. The HOWE warranty excludes those parts, which are subject to normal wear and tear in use.

AWARDS

Tutor won an AIT Innovation Award at Orgatec, Cologne in 2004 in the category "Produkte von hoher architektonischer Qualität".
