## Simpla key features / Design by John Bollen 2000 / Simpla key features

Simpla is a 4-leg lightweight table system with a 'lift off' top and folding frame. Intended for use in the training, meeting or conference environment, the separate top and frame elements may be stored on the purpose designed trolley, thus making the setting up and storing away of layouts an easy process for just one person, probably the trainer him or herself.

## **TESTING AND WARRANTY**

Simpla is designed for severe contract use and has been subject to a variety of tests to ensure its highest quality and durability. The furniture is tested by third-party organizations and passed testing according to the required EN and BIFMA standards, staying also in line with strict emission regulations. All the certificates are available for access and download <a href="https://example.com/here/by-nample-party-by-nample-pa
