

The AS100 swivel chair is smart, comfortable, and at a quality level that makes it stand out. Designed by the successful German designer Andreas Störiko, the AS100 meets the growing need for flexible spaces and agile processes, providing mobility and freedom to arrange work, study, and meeting set-ups at your will.

Due to its patented nesting ability and mobile castor base, the AS100 can be moved across the aisle, stacked into the storage room or into the lift by just one person.

AS100 stacks horizontally as many chairs as wanted. Also, there is no limit for number of chairs in which can be pushed together. This is applicable for versions both with and without armrests. The horizontal stacking and easy rolling castors make it a zero-weight solution where the chairs can be managed and stacked in an ergonomically correct manner.

The AS100 is available with and without armrests. It is part of a product family of nesting chairs and tables, called AS series.

#### TESTING AND WARRANTY

- AS100 has been tested to EN16139:2013 and ANSI/BIFMA X5.1-2017 for strength and durability.
- All versions of the AS100 chair are FSC® certified.
- All parts of the chairs can be dismantled and recycled.
- A sustainable frame and base contains a minimum of 46% recycled content and is 76% recyclable.
- The AS100 chair has 10-year warranty.
